

Construction update

Major construction works are continuing on the Lathams Road Upgrade.

From late October we'll start relocating services on Lathams Road, widening the EastLink ramps and begin piling and foundation works for the new bridge over Peninsula Link.

Service relocation works

We're continuing to relocate water, gas and power services, including moving powerlines underground along Rutherford Road and surrounding side streets. From late October, we'll begin relocating services on Lathams Road between Frankston Gardens Drive and Frankston Dandenong Road and start asphaltting in some areas to build temporary pavements in preparation for road widening.

Service relocation works are expected to continue until early 2022 and include building temporary road pavement, installing drains and relocating water, power and gas lines.

Eastlink ramps

From late October 2021, we'll begin construction on the Eastlink ramps at the end of Rutherford Road.

These works include installing concrete safety barriers, removing vegetation, excavation and asphaltting. These works will continue until May 2022. Most works will occur behind barriers and speed reductions will be in place to keep motorists and our workers safe.

Peninsula Link

We've recently completed works to strengthen the new Lathams Road bridge embankments. From late October 2021, we'll start piling and foundation works for the new second bridge over Peninsula Link.

We'll be working in the centre median of the Peninsula Link Freeway during these works.

What does this mean for you?

From late October 2021, there will be:

- overnight closures of the Eastlink entry and exit ramps
- lane, shoulder and full road closures on Lathams and Rutherford Road and surrounding side streets
- speed reductions between the Eastlink ramps and Frankston Dandenong Road
- on-street parking removals along sections of Rutherford Road and Lathams Road
- changes to pedestrian movements and access to local businesses
- increased construction noise and activity between Eastlink Ramps and Frankston Dandenong Road.

Detours and advance notifications will be in place for any road or ramp closures. Please sign up to the Lathams Road Upgrade mailing list to stay informed about these closures at roadprojects.vic.gov.au/subscribe.

We'll continue to work with you to manage impacts as works progress. You will receive advance notice before any changes to access and utility service supply disruptions. Emergency local access for businesses will be provided throughout these closures.

All works are weather contingent and subject to change.

Keeping COVID-safe

Works are continuing safely on the Lathams Road Upgrade with COVID Safe plans in place to help protect workers and the community. Strict processes are in place to check and record the vaccination status of workers entering construction sites. For more information about coronavirus COVID-19, please visit coronavirus.vic.gov.au.
